Work Smarter, Not Harder

Ever wonder how some people seem to create content with ease?

Well some of them are just machines (I mean that in nice way) and just effortlessly churn out reams of content like a non-stop river.

Others use ready made content as the source of their content and take that as their inspiration. Then there are those who just have other people do all of the work while they claim the glory.

There is nothing wrong with either of those approaches.

It's a matter of personal preference and, sometimes, of time and skills.

The fastest way to create content is to use Private Label Rights (PLR) products.

These grant the owner of these rights the ability to do what they wish with the product including claim authorship of the product.

This is more common place than you may think. In some cases store 'home brand' products are actually PLR products which the store has bought the rights for so that they can claim to be the producers of said product.

So, if it's good enough for big name stores, it's good enough for you as a budding Internet marketer.

This report will help you find some of the best PLR content providers I have found, and used.

The list of providers is not by any means a full list, there are others available, but these are my favourite ones. Also These sites may offer affiliate programs and by registering with those I am affiliated to I may receive a commission from any purchases you may make from those sites. This will in no way have any effect on the cost to yourself as a consumer or customer of these sites.

If you are not ok with me receiving a commission then you are welcome to use other methods to find these sites.

My Top Five PLR Providers.

The following are my personal favourite top five providers of PLR content. They may, or may not, be THE best. That being said, here we go. In no particular order...

1. [HQPLR](#)

The link above gives you a \$1 trial offer.

This site provides it's members with High Quality 'ready to go' PLR products.

These range from e-books to full blown video courses. Complete with template sites & sales pages. In many cases email swipe files are provided to help generate even more sales.

2. [IDPLR.com](#)

This membership site features over 8200 PLR products. This site has a FREE membership and paid membership options. Obviously the paid option provides far greater amount of products.

3. [plr-mrr-marketing.com](#)

This site offers a great range of PLR products. Many are free.

These products may require some research to up date them and make them current.

Still great content that will help inspire you.

4. [One Buck e-Book](#)

There are lots of products here for roughly \$1.

You can use these products 'as is' or alter them and create more value to them.

5. [PLR Monthly](#)

Get new PLR content every month.

This membership site provides you with the products, sales pages and tutorial videos so you get great support with each product. As a member you also get access to their PLR archive.

So, those are my personal top 5 favourite PLR sites and will give you plenty of content to get you finally making some extra cash online.

However, to get the most value from your PLR purchases I highly recommend that you buy John Thornhill's [PROFIT FROM PLR](#) course.

John is an expert when it comes to making money with PLR products. It's how he managed to break free from his life as a factory worker in a Car manufacturers plant in the north east of the UK.

To find out more about John's course, and to purchase it, please hit the link below.
